A warm greeting to all PurpleLily friends. It’s been a long time since the last issue of newsletter. We are proud to tell you that PurpleLily has been growing vitally from 2014 to present!

Thanks to all the good work from our committed team, PurpleLily is now a well-established NGO with ongoing impactful projects and programmes. In fact, PurpleLily is expanding its work!

Please continue to support our mission to inspire and empower more women, together we can bring positive changes to more communities!

“You educate a woman; you educate a generation.”

Empowering Rural Women - TOT

Good news on our work in rural communities! Our Training of Trainers (TOT) project has expanded and is currently being delivered in Lundu, Sri Aman and Kampung Sinjuk. Thirty women from each community are being trained as Associate Facilitators and they then deliver PurpleLily workshops to women in their own communities.

PurpleLily succeeded in obtaining a prestigious grant to run this TOT project, it is such an effective and empowering model to reach women in rural areas.

Essential Training to Inspire and Empower Women
PurpleLily loves to partner with other NGOs! One of our recent NGO partners is The Champions. The Champions is an NGO that aims to engage university students to drive positive socio-economic impact in our society. On March 28th, we conducted a Financial Management workshop for local university students at the 7th Champions Empowerment series. This is a special project we organized together with The Champions. The university students learned useful knowledge and tools to manage money from the four hour workshop. With the concepts of expense tracking and budgeting, the students are now equipped to take control of their finances.

The girls are learning and having fun in PurpleLily girl workshop.

Ginette (left) facilitated a group discussion among the students during the workshop.

PurpleLily appreciates the opportunity to work with university students. Young people can act as agents of change in our society, it is very powerful to ignite the cycle of positive impact within universities.

Testimonies from participants:
“The talk is interesting and I think the workshop should be carried out in universities and colleges to benefit more young people.”
“A very beneficial workshop! Great efforts from PurpleLily and The Champions!”
